POLO HAD TO QUIT CANADA

Spanish Ex-Minister Abused His Privileges There.

HIS SECOND WARNING STARTED HIM OFF FOR SPAIN.

Washington, May 21.—Special—The sudden departure of ex-Minister Polo from Canada was not unexpected here, and is looked upon as additional evidence of the friendship of Great Britain for this country in the pending struggle. Some time ago when it was ascertained that Polo was abusing his right of asylum on British soil by furnishing information of the movements of the American government to Madrid, the state department made protest to London. Very promptly Polo received a hint from the British foreign office that such conduct must cease. To this he paid no heed at first, and continued to act in the capacity of a spy. On Thursday a brief telegram was received at Montreal to the effect that if Polo did not at once heed the warning given him he would be furnished with a police escort to the border of Her Majesty's dominion. This was sufficient. Polo packed his trunks hurriedly and left for Spain on the first vessel to sail. He did not insist upon first class accommodations, but accepted those most available, realizing that haste in getting out of the country was the best evidence of wisdom.

A Fight Expected.

Washington, May 21.—Special—It is again said in vaval circles that a battle is imminent between the combined Sampson and Schley squadrons and the Spanish Cape Verde fleet. Sampson left Key West last night after taking on coal, sailing in an easterly direction. It is believed that he will succeed in forcing a fight from Cervera before many hours have passed.

German Sympathy for Spain.

Washington, May 21.—Special—The opinion that the much desired German support of Spain will soon be accorded as growing strongly. The belief is strengthened by a report from Manila that the German residents there, influenced by instructions to the German consul, are markedly sympathizing with the Spaniards.

DELINQUENTS MUST PAY UP

Judgments Entered Against Odd Fellows Who Failed to Pay for Insurance

In Justice Richardson's court judgment has been taken against sixty members of the defunct Wisconsin Odd Fellows' Life Insurance company, they having failed to settle in the specified time. Out of the sixty members who decided to fight the case, thirty settled, and judgment against the rest was taken. This puts an end to the celebrated case as far as local parties are concerned.

SAMPSON IS CRITICISED

Some Hold Him Culpable For Cervera Reaching Santiago.

GENERAL FEELING IS ONE OF CONFIDENCE IN HIS ABILITY.

Washington, May 21.—Special—Opinions differ as to whether or not Admiral Sampson was culpable in allowing the Spanish fleet to gain entrance to Santiago de Cuba harbor. Some think he should have prevented this at all hazards; others think he did right, and that the Spaniards will find themselves completely bottled up. It is held on the one hand that the slips will be useless to the Spanish cause, as they cannot emerge from the harbor without the certainty of capture or destruction. On the other hand some naval experts hold that the presence of the fleet there will keep our vessels employed while Spain is fitting out other armaments to operate either at the Philippines or in Cuban waters—perhaps to shell some of our unprotected seaboard cities. The new phase of affairs is, on the whole, far from satisfactory. Sampson's waiting policy is not relished, and he may be called upon for an explanation.

Sails From Key West.

Washington, May 21.—Special—It may be definitely stated that Admiral Sampson's fleet has left Key West after securing plenty of coal and other supplies and having the barnacles scraped from the bottoms of his boats. Barnacles are exceedingly troublesome in these waters. While they do not injure the hulls of vessels they interfere greatly with their speed. A quick job was done here, divers performing most of the work. While at Key West Sampson received telegraphic orders from Washington which, it is understood, give him carte blanche to seek and fight the enemy at his own discretion. That he will soon engage the enemy is the prevailing belief, but as to his plans every one is, of course, in the dark.

Speculating on the Situation.

Washington, May 21.—Special—By piecing out the various bits of official and unofficial information of yesterday it seems reasonably certain that Cervera was at Santiago and probably left there, while the ships of the American fleet were probably at Key West or scattering from there. Naval officers here are inclined to think the Spaniards will make a demonstration off Charleston, S. C., to draw the American fleet away from Cuban waters. Demonstrations along the New England coast are also expected. In the meantime the orders to Sampson are to maintain the blockade, be ready to convey soldiers to Cuba, and destroy the Spanish fleet if he can find it.

Confident All Is Right.

Key West, May 21.—Special—Where our ships are at present is not generally known here. It is declared, however, that there is no reason to feel anxious about our squadrons, and that they will accomplish what they have set out to do. It is also confidentially believed that with reasonable luck Spain will sue for peace within a month.

Shelled a Seaport.

Madrid, May 21.—Special—Dispatches from Havana report that two American warships again shelled Guantanamo yesterday, inflicting small damage.

Dispatches For Miles.

Key West, May 21.—Special—The war tug Leyden picked up five Cubans in an open boat off Cape Piedras light May 18. One of them has important dispatches from Gomez for Gen. Miles.

No More Permits.

Washington, May 21.—Special—The navy department has decided to grant no more permits to vessels of any nation to pass the blockade and enter Havana.

Will Defend Manila.

Madrid, May 21.—Special—Governor General Augusti reaffirms that he will distribute every rifle and cartridge he possesses and defend Manila to the last.

Sails This Afternoon.

San Francisco, May 21.—Special—The Charleston will probably sail for Manila this afternoon. The first troops will sail Tuesday.

ALL THE NEWS OF
THE BADGER STATEWISCONSIN WINS THE DEBATE
WITH ILLINOIS UNIVERSITY.

No Change in Strike Conditions at Oshkosh—Uncle Sam to Be Asked to Reimburse the State for Fitting Out Troops—Memorial Day in the Public Schools.

Champaign, Ill., May 21.—The postponed debate between the Universities of Wisconsin and Illinois took place last night in University chapel and Wisconsin proved victor, having the affirmative.

The question debated was: "Resolved that private ownership and operation of the telegraph lines is preferable to government ownership and operation, provided the railroads could lease lines as at present; that promotion should be for merit alone and that the management be free from corruption."

Wisconsin was represented by J. D. Shaw, A. B. Dana, and George B. Nelson, Dana having the rebuttal, while the Illinois debaters were B. O. Young, R. O. Everhart, and N. D. Reardon. The judges were Chief Justice R. T. E. Howard and Associate Justice Harkney, of the supreme court, and Judge O. Z. Wiley, of the Appellate court of Indiana.

TO REIMBURSE THE STATE.

Government to be Asked to Pay for Equipping the Volunteers.

Madison, Wis., May 21.—Early next week Governor Scofield will send to Washington a bill for the equipment belonging to the state, which was turned over to the United States with the Wisconsin troops. The state at present is practically stripped of equipment, and it will be impossible to raise another national guard until arms, tents, uniforms and the other necessary equipment can be had. The state has no money at present available with which to equip new troops, and none could be had without a session of the legislature. When the equipment for the three regiments was sent to the front, the United States agreed to repay the state for its outfit in the expenses of mobilizing the troops, and for the equipment they took with them. Gov. Scofield desires to collect this as soon as possible, in order to be ready to equip any other troops that might be called for.

The governor says it is probable he will send a representative to Washington with the bill in order to press it upon the attention of the officials there and secure a more prompt payment of the money than would otherwise be probable. The office of the adjutant general is at work figuring up the value of the equipment sent away and will have the estimate ready by the first part of next week.

THE OSHKOSH STRIKES.

No Present Prospects of a Settlement of the Difficulties.

Oshkosh, Wis., May 21.—Yesterday, the fourth in the strike of the woodworkers, shows no change. It still remains a test of strength with the factories idling and running, but turning back many workers. Statements in the evening papers to the effect that the manufacturers had decided to discharge formally all striking operatives and proceed to fill their places and also that the factories had decided to run half force the rest of the year, is denied tonight though the first statement is true as to one factory.

The strikers are keeping posted as to factory movements and claim to be receiving outside financial aid. Everything points to a long struggle.

The strike seems to have become contagious. Thursday seven men failed to report for duty at the plant of the Wisconsin Grass Twine company because a demand for higher wages made at quitting time the night before was not granted. Manager Diekmann filled their places with new men.

HELIOTROPE MOUSSELINE DE LAINE GOWN FROM HARPER'S BAZAR

Among the new skirt effects are those produced by various methods of decorating the front and sides. A model with a Parisian color combination of dark red and pale heliotrope is made of mousseline de laine. The skirt is cut in two parts—a close fitting upper part, and a full circular flounce attached. This flounce is cut away either side of the front, and a cluster of fan pleats in satin of the same shade as the gown is inserted in each space, which causes it to hang gracefully at the feet. Black bands of satin and velvet, in deep points, trim the skirt above the fans, producing the effect of an over-dress—a mode towards which French fashions are slowly drifting. The trimming continues in open effect towards the back, framing the fulcrum spaced with a close effect in the centre. Four yards is the width of the skirt at the foot.

A dark red satin under-bodice is disclosed by the blouse, which is cut in pointed décolleté; overlaps slightly

at the bust, where it is attached, and is open again below.

Trimming the upper part and falling over the tight gilet sleeves is a bertha in jabot effect—wide and square at the lower edge, and diminishing at the shoulder, where it terminates in a fan-shaped frill ornamented with a gold buckle. The jabot is bordered by a wide black velvet ribbon, with a narrower one of satin each side of it, which finishes also the pointed neck behind. The corsage is fitted snugly at the waist in the back, and the belt is of red satin clasped with gold buckles. The collar is plain and high, and the sleeves are terminated at the wrists by deep points. The proper cut of the gown can be obtained only from the cut paper pattern, published by Harper's Bazar where it appears.

Approximate quantity of material—10 yards 30 inches wide; satin for under-bodice, 3 yard; satin for pleatings, 11 yards; velvet ribbon, 1 piece; satin ribbon, 2 pieces.

President McKinley. The publication is introduced by a letter of Sup. Emery to the public school teachers of the state.

State News in Brief
Four carloads of piles ordered for the foundation of Manitowoc's proposed elevator, and which had arrived at that city, have been ordered to be forwarded to Sheboygan by the projector of the elevator scheme. It seems evident by this that the Northern Grain company intends to change the location of the elevator and that Sheboygan will finally secure it.

The suicide of E. W. Kaeten, son of Dr. Julius Kaeten of Milwaukee, yesterday morning, was a singular circumstance from the fact that another son of Dr. Kaeten also committed suicide at the same hotel several years ago.

The most destructive fire ever experienced in Kewanee occurred last Thursday night, destroying nearly two blocks of the business portion of the town. The loss will be about \$100,000. The fire started in the Gantner house barn.

A. Moses, a pioneer merchant, of Chippewa Falls, attempted suicide by shooting Friday afternoon the ball passing through his chin. It was extracted from his right cheek and he will recover.

The joint debate between the Fond du Lac and Sheboygan High schools resulted in favor of Sheboygan, the judges giving Fond du Lac 153 and Sheboygan 807 points out of a possible 900.

ART OF THE NETHERLANDS

Mrs. Bosworth's Lecture Last Evening Was Highly Instructive.

Last evening Mrs. W. F. Bosworth entertained members of the Art League with her interesting lecture on "The Philosophy of the Art of the Netherlands" at the home of Miss Etta Capelle, No. 158 South High street. The attendance was discouragingly small. Those members of the league who attended, however, were well repaid for their trouble, for a more in-

teresting and instructive talk on art or kindred topics has not been given in Janesville for many years.

Mrs. Bosworth compared the three great schools of art, the Greek, the Italian and the Dutch. The Greek is the school of idealism. The Greek personified everything. He idealized humanity and humanized religion until they became so interwoven it is impossible to discover the dividing line. The Greek was human in everything. The Italian school, on the other hand, was the school of symbolism and was inaugurated when the church was at its height. The Dutch school was due to three potent influences, the architecture of the country, with small wall spaces; the invention of printing which took away the mission of story-telling pictures; and greatest of all, the reformation and its results. The Dutch school lacked spirituality. It came at the time of the birth of realism and the result of this extreme realism was the low paintings which characterize this school. It seemed a shame that men who were capable of painting such great pictures would have lent themselves to the coarse realism of this school. The effectiveness of light and shade has never been so well interpreted as by this school.

SUNDAY THEMES
IN LOCAL PULPITS

WHY SOME ANNOUNCEMENTS
ARE NOT PUBLISHED.

Bishop Nicholson Will Confirm Classes at Christ and Trinity Churches—Elder Pease Will Occupy the First Methodist Pulpit—Topic of Live Interest.

Local clergymen who find their congregations dwindling in numbers have, in some cases, themselves to blame. They frequently neglect to send the announcements of their Sabbath services to The Gazette in time for insertion in their proper place in this column. As a consequence scores of people do not know there are services in the church of their choice and if they attend divine worship at all go to a church whose pastor has taken the trouble to advertise. Notices of Sunday services should be received at The Gazette office not later than noon on Saturday of each week. If received later they are liable to be omitted entirely or will have to take the chance of appearing in other parts of the paper where they will be apt to be overlooked by those in search of such announcements. The Gazette publishes all religious notices free and it is not too much to ask that those who will be benefited by the publication shall send in their copy early enough to insure insertion in the proper column.

Following are the pulpit announcements for tomorrow:

MORE OF THE WAR PARABLES

They will not be continued. Rev. E. D. Hall preaches at Milton Junction tomorrow.

Mr. Hall will continue his discourses at Court Street Church.

The interest in the war parables now being given at the Court Street church on Sunday evenings grows apace. Everybody's mind and heart are at the front with our boys on the sea and on the land.

The war parables are consequently timely and appropriate. The attendance last Sunday evening was large and the attention given was superb. God is teaching the nation some great lessons in the bright pagantry and awful horrors of war. We may well listen. The "Life of Christ" series will be continued in the morning. Christ should be studied and copied. The extra services came to a close on Friday evening.

WRITE TO THE SOLDIERS.

The Philadelphia Record says: "Write Me a Letter from Home," was the title of a ballad popular during the civil war; and it expresses a sentiment quite as lively now among the Boys in Blue who are now at the front or on the way thither. To the popular fancy a soldier's life is made up of bustle and excitement; yet whether in camp or on the picket line every soldier has his share of lonesome hours, and it is then that the feeling of homesickness is apt to steal upon him. It may be a disease, as certain doctors say, but it can be averted. "Write your soldier boy a letter from home! It need not be a long, pretentious letter; it need not contain a single item which he did not already know; but no matter how homely or how trite its themes, it will fill his heart with joy, and may lighten the burden of his knapsack along some weary stretch of Cuban highway. Write him a letter from home, and of home, and all the loved ones that home associations can recall! It will make a better soldier and a better man of him. And in order to make sure that he shall get it promptly, be careful to include in the address not only the name of the postoffice nearest which he may be encamped, but also the designation of his regiment, his company and his rank."

WHY A SHIP IS "SHE."

The New York Tribune does not seem to wholly agree with the old sailor who said a ship was called "she," because "the riggin' cost more than the hull." The Tribune says: "The word ship is masculine in French, Italian, Spanish and Portuguese, and possesses no sex in Teutonic and Scandinavian. Even a man-of-war is she to our sailors. Perhaps it would not be an error to trace the custom back to the Greeks, who called all ships by feminine names, probably out of deference to Athene, goddess of the sea. But the sailor assigns no such reasons. The ship is to him a veritable sweetheart, and it is a common thing to hear him ascribing to it a vitality and intelligence. The ship possesses a waist, collar, stays, laces, bonnets, ties, ribbons, combings, earrings, chains, watches, jewels and scarfs, and there is often considerable "bustle" about her. She is full of pins, hooks and eyes. She also possesses a forehead, nose, head, eyes, teeth, shoulders and more than one heart. The keeper of a ship in port is familiarly called the "ship's husband." If we add that she looks best when fully "rigged out" we may have enough of sailor logic to account for the female name."

The people are in no mood to put up with any partisan play or filibustering. War is a serious business in which all citizens are alike deeply interested. They will turn against their own brothers at sight on a suspicion even that they are taking advantage of the necessities of the country for selfish purposes. As an expression of opinion it may go though it were better not at this time expressed. But war calls for business, not politics.—Milwaukee Journal.

The Spaniards who were captured in the battle of Manila explained their defeat by saying it was due to the fact that the Americans arrived too early in the morning, while the Dons were still in their night clothes and before they had their coffee. They are trying to make out that Admiral Dewey was not polite, and took a mean advantage of them.

Delavan Enterprise: "A Janesville man was charged with stealing twenty-eight dollars' worth of whisky. The jury found him guilty. They also fixed the value of the stolen goods at twelve dollars. We have always heard that was the kind of whisky sold in Janesville, worth about forty cents on the dollar."

The soldiers at Camp Harvey have all been singing the praises of Gov. Scofield. The governor has been one of the most active workers for the welfare of the boys in camp and has taken a personal interest in all that concerned them.

Truth Seeker—The information you seek will be found in any standard work on gunnery. The modern cannon is not cocked at all, but is fired by electricity. You evidently have a muzzle loading shotgun in mind.

Russia does not expect to take a hand in the war. Otherwise the czar

would not have contracted for two war ships to be built at Philadelphia.

If the Nicaragua canal had been finished, the American people would have been spared all the worry concerning the safety of the Oregon.

WERE WELL PROVIDED FOR.

Janesville Soldier Boys Were Remembered by Their Friends.

Less than a dozen local residents were in Milwaukee yesterday morning to see the members of the First Regiment depart for Tampa. Two Janesville girls who have sweethearts in the ranks of Co. A. made the trip, as did also a few brothers and fathers. On Thursday last several express packages were forwarded from this city to Camp Harvey, and it is safe to say that the Janesville boys lived high this week in the way of eatables.

One member of Co. A. who resides on Milwaukee avenue is said to have been offered \$200 in cash by his mother if he would return home. This was before he was mustered into the regular army.

Not Exactly Right
"Not Sick Enough for the Bed or Well Enough For the Table."

A Minister's Wife Aptly Describes a Well Known Condition and Tells How It Was Overcome.

There are thousands of people in all walks of life, particularly at this season, who are "not exactly right" and yet are not sick, for whom a single bottle of Hood's Sarsaparilla would do a world of good, as it has done for others. Business and professional men as well as the busy housewife are especially susceptible to this debilitated feeling. It is the peculiar combination of the best tonic, anti-bilious, diuretic and alterative agents of the vegetable kingdom, carefully and scientifically combined, which enables Hood's Sarsaparilla to reach simple as well as serious ailments when all other medicines fail. Read Mrs. Hunt's letter:

"O. I. Hood & Co., Lowell, Mass.:
"Dear Sirs:—I trust that the publication of my testimonial may serve to introduce Hood's Sarsaparilla to many who need physical improvement, and lead them to give it a trial. My husband, Rev. Granville Hunt is a corpulent man weighing 230 pounds. He has taken Hood's Sarsaparilla every spring for the last eight years with good results. With the approach of spring he has had an indescribable feeling of ill health. 'Not sick enough for the bed or well enough for the table.' In a few words, He Became Run Down each year from constant mental and physical action. Hood's Sarsaparilla has relieved and invigorated him in every instance. Last month we purchased four bottles of the medicine. I took two of the bottles, being weak, Without Appetite and Vigor. After I had used half a bottle of Hood's I realized quite an improvement and soon felt quite comfortable. I gained so much that I recommended Hood's Sarsaparilla to my nearest neighbor, who has had malarial symptoms. She has also taken the medicine and its effect upon her for good was almost magic. She has now prevailed upon her husband to take it to build him up. I have also given Hood's Sarsaparilla to my two little girls, one nearly 3 years old, who is not strong, consequently languid, and the other, 15 years old, for pimples which indicate bad blood and disfigure her complexion. Both have been helped by Hood's Sarsaparilla which I am glad heartily to recommend." MRS. G. HUNT, 101 West 31st Street, N. Y. City.

MEN ARE ON THE WAY TO TAMPA, FLORIDA.

SOLDIERS LEAVE CAMP FOR THE FRONT.

Janesville and Beloit Companies Have a Composite War Cry—Regiment Left in Three Sections, the Rock County Delegation Going in the Second Section.

Janesville soldiers are now on their way to Tampa, Florida. The "boys" had plenty of fun getting ready for the start yesterday. It was about 8:30 o'clock when the first section was marched to the north of the grounds, where the trains were in waiting. Women and children and girls followed closely after, and they had an hour in which to bid their sons and brothers farewell.

Soon the windows of the cars opened all along the side facing the old camp, and the four companies combined gave three cheers and a tigger for Camp Harvey. They all appeared in such good spirits that the faces around them brightened visibly. But they clouded again, and many an outlooker cried unreservedly as the train drew out and the band played the sad strains of "Fahr Wohl" ("Fare Thee Well").

Women ran along the side of the train, waving white handkerchiefs from the windows, but they soon stopped exhausted as the train increased its speed, and finally disappeared under a trestle faintly discernible through the mists in the east.

While this was going on, the members of Co. A, E and H and D were inspiring one another with happy sallies in the Agricultural building. Co. A and E of Janesville and Beloit, on one side of the building, were taxing their lungs in friendly banter of H and D of Monroe and Darlington, which were stationed at the opposite of the building. Their cry was:

Cuba, Cuba, you'll be free
If you want to A and E
Cuba, Cuba, you won't be free
If you wait for H and D.

This ended with a tigger and a yell of B-E-L-O-I-T—Babel Babel!

All morning the company yells resounded through the big buildings while the wait for marching orders was in progress.

This remedy is for sale by People's Drug Company, corner of Main and Market streets.
